

YardStash Bicycle Cover Full Zip II

Instructions

Thank you for your order! Please feel free to contact us if you have any questions or feedback: (888)315-1045 or info@yardstash.com

1. Fully unzip the cover.
2. Place the top of the cover over your bike's handlebars with the YardStash logo facing forward in front of and below the handlebars.
3. Starting from the front, pull the cover over your bike so the top silver material is covering the front tire, handlebars, seat and the top of the back tire.
4. Lay your bike flat on the ground with the cover opening and zipper facing up.
5. Pull the silver material on the bottom of the cover under and over the bottom of the front and back tires. Fully zip the cover and make sure the zipper storm flaps are folded over the zipper.
6. Bring your bike to an upright position and tighten the front draw strings as needed for the desired fit (make sure to loosen the draw strings before removing the cover).
7. **Optional:** Insert a lock through the lock holes to secure your bike to an external object.
